Hello Pomona Community,

ASPC hopes this email finds you well. We are reaching out to you requesting feedback on a new resolution some members of ASPC recently introduced to all Senate for consideration.

A few weeks ago, ASPC President Maria Jose Vides, introduced the framework for a resolution to institutionally recognize Indigenous People's Day as a college campus. ASPC Staff Members drafted an initial resolution, open to edits by Senate.

Before moving on, we want to hear your feedback. You can make a comment on the [resolution document](#) or you can submit a comment via [this form](#).

We look forward to hearing from you!
