Dear Scripps students,

It saddens and disappoints us to hear news of the events that occurred during Hussam Ayloush's talk earlier today. We, as members of the executive board of SAS, condemn these sentiments of islamophobia and hatred. We offer warm thoughts and support to those who were affected by these events. As SAS continues discussion with the Humanities Institute and Office of Public Events about preventing future acts of hatred at public events and lectures, we'd first like to offer resources to impacted students (provided by the Humanities Institute).

If you would like to speak with a supportive faculty member, please contact one of the following individuals:
